

Scholastic Aptitude Test, 2017 EC, entrance exam, round 2, booklet 369

Grade 12 · Aptitude · 2017 E.C.

Time allowed: 120 minutes

Questions: 51

Total marks: 51

Name _____ Grade _____ ID No. _____ Date _____

1. EDUCATION: INVESTMENT; Security: (1)

A. Warfare	B. Peace
C. Power	D. Jail
2. FOOD: LIVELIHOOD; Accountability: (1)

A. Dictatorship	B. Friendship
C. Relationship	D. Leadership
3. INDIVIDUAL: CITIZENSHIP; State: (1)

A. Authorship	B. Governance
C. Democracy	D. Aristocracy
4. RIGHT: MISTAKEN; Life: (1)

A. Contentment	B. Gratification
C. Miserable	D. Progress
5. RESILIENCE (1)

A. Fragility	B. Elasticity
C. Depression	D. Vibrancy
6. PROXIMITY (1)

A. Neighborhood	B. Distance
C. Demarcation	D. Polarity
7. RETALIATION (1)

A. Conspiracy	B. Amnesty
C. Revenge	D. Compassion
8. ABUNDANCE (1)

A. Prosperity	B. Destitution
C. Scarcity	D. Poverty
9. FORWARD (1)

A. Onward	B. Backward
C. Progress	D. Ideal
10. SELECT (1)

A. Discard	B. Upgrade
C. Pick	D. Undermine

-
- 11. LOOSE** (1)
- | | |
|------------|-------------|
| A. Give up | B. Withdraw |
| C. Aspire | D. Tight |
-
- 12. ELECT** (1)
- | | |
|------------|-----------------|
| A. Choose | B. Dismiss |
| C. Abstain | D. Discriminate |
-
- 13. Choose a word that does NOT fit into the group.** (1)
- | | |
|----------|----------|
| A. Crime | B. Court |
| C. Law | D. Jury |
-
- 14. Choose a word that does NOT fit into the group.** (1)
- | | |
|--------------|------------|
| A. Principal | B. School |
| C. Pupil | D. Learner |
-
- 15. Choose a word that does NOT fit into the group.** (1)
- | | |
|-----------|------------|
| A. Spouse | B. Husband |

21. *Intellectuals, who are visionary citizens endowed with profound wisdom and foresight, apply their knowledge for the purpose of awakening society with a view derived from the Vietnamese word for intellectual, trithuc, which denotes the blend of "mind" and "awaken". There are three key factors in nurturing intellectuals: knowledge; ability and willingness to awaken society to a noble cause. It is evident that discussing the role of intellectuals is as good as discussing the social responsibility of intellectuals. Einstein maintains that "The world is a dangerous place not because of those who do evil, but because of those who look on and do nothing." Intellectuals should thus mobilize their capacity to steering society away from the foreseeable negative impacts not only just for past multifarious efforts, but also for current and future inappropriate endeavours, and protecting social standards and universal values. (Source: Slightly adapted from Gian Tu Trung: What is the Role of Intellectuals in Society? World Economic Forum 15 March 2013)* (1)

According to the passage, who is an intellectual?

- A. A person with a terminal degree
- B. Somebody with bookish learning
- C. Someone who discharges social responsibility
- D. A person neutral to the problems of a country

-
22. *Intellectuals, who are visionary citizens endowed with profound wisdom and foresight, apply their knowledge for the purpose of awakening society with a view derived from the Vietnamese word for intellectual, trithuc, which denotes the blend of "mind" and "awaken". There are three key factors in nurturing intellectuals: knowledge; ability and willingness to awaken society to a noble cause. It is evident that discussing the role of intellectuals is as good as discussing the social responsibility of intellectuals. - 25.** *Fiscal Policy and African Development (1.) Fiscal policy deals with the use of financial resources; and has the potential to be a key driver of Africa's growth and development (2). However, the fiscal reforms and adjustments introduced since 2000 had a mixed impact on fiscal performance across countries. (3) In many other countries, increased government revenue supported investment in infrastructure and services, fostering economic growth. (4) However, several African countries are experiencing persistent fiscal deficits and a narrowing fiscal space with high and rising debt, threatening macroeconomic stability. (5.) Most countries continue to practice a cyclical fiscal policy. (6) To reduce fiscal vulnerability, countries need to change their fiscal practices. (7) Countries could increase their tax revenue by 4 to 7 per cent of GDP by shifting from a cyclical to counter cyclical fiscal policy. (8) African governments should therefore put more effort into strengthening macroeconomic management and improving spending efficiencies. (9) African countries are advised to reallocate more funds to health and education to achieve higher investment and growth. (10) Fiscal policy can also crowd in private investment in infrastructure and help encouraging research and development enhancing the business environment, (11) African governments should also take part in the ongoing global race to the bottom, as countries rush to cut corporate taxes to enhance competitiveness and attract investment. (12) Taxes on income, profits and capital gains could have to be cut by half to increase total investment by just 1 per cent. (13) Fiscal policy can second largest impact on increasing the value of manufacturing (14) The factors affecting fiscal performance are interconnected and thus require a holistic policy framework to address them. Source: United Nations Economic Commission for Africa Fiscal Policy for Financing Sustainable Development in Africa.* (1)

According to the passage, many African countries are experiencing _____

- | | |
|--|---|
| A. Growing debt and financial scarcity. | B. fast growth of infrastructure. |
| C. increased government revenue. | D. high level progress of macro economy. |

26. *Fiscal Policy and African Development (1.) Fiscal policy deals with the use of financial resources; and has the potential to be a key driver of Africa's growth and development (2). However, the fiscal reforms and adjustments introduced since 2000 had a mixed impact on fiscal performance across countries. (3) In many other countries, increased government revenue supported investment in infrastructure and services, fostering economic growth. (4) However, several African countries are experiencing persistent fiscal deficits and a narrowing fiscal space with high and rising debt, threatening macroeconomic stability. (5.) Most countries continue to practice a cyclical fiscal policy. (6) To reduce fiscal vulnerability, countries need to change their fiscal practices. Which sentence in the reading text is used as evidence for the answer to question number 27?

- A. Sentence 10 [Fiscal policy... business environment.]
- B. Sentence 8 [African governments... efficiencies.]
- C. Sentence 12 [Taxes on income... just one percent.]
- D. Sentence 13 [Fiscal policy... manufacturing.]

29. Statement I: Some countries do not incorporate Civic and Moral Education in the national curriculum of their countries. Statement II: Juvenile delinquency and drug addiction is growing by the day in such countries. What is the relationship between the above statements? (1)

- A. Statement I refers to the consequences of neglecting ethical and moral education.
- B. Statement II asserts the root causes of juvenile delinquency and drug addiction.
- C. Statement I refers to the cause while statement II relates to the effect.
- D. There is no logical relationship between the two statements.

30. Which one of the following is equal to $-6 + (1 + 3^3)/(2 \times 7)$? (1)

- | | |
|-----------|-------|
| A. $77/4$ | B. 32 |
| C. 92 | D. 56 |

31. Which one of the following triple of numbers contains an irrational number? (1)

- | | |
|-----------------------------------|---------------------------------|
| A. 3.01, $22/7$, $\sqrt{36}$ | B. 3.14, $\sqrt{121}$, 2.01001 |
| C. 2.1313, 3.1412, $7/\sqrt{484}$ | D. 3.54, $\sqrt{55}$, $1/3$ |

32. If a and b are two real numbers such that: $2a^2 - 2b^2 = 8640$ and $a - b = 120$; then what is the value of $a + b$? (1)

- | | |
|--------|--------|
| A. 360 | B. 36 |
| C. 72 | D. 240 |

33. Which one of the following is equal to the ratio 36 km/hr to 30 m/s? (1)

- | | |
|----------|----------|
| A. 1 : 3 | B. 3 : 1 |
| C. 5 : 6 | D. 6 : 5 |

42. In the following figure how many triangles are there? (1)
[Figure: A rectangle drawn in landscape orientation, with three straight lines inside it, all three passing through the rectangle's centre. Two of them are the rectangle's diagonals: one from the top-left corner to the bottom-right corner, and one from the bottom-left corner to the top-right corner. The third is not a diagonal: it runs from a point on the top edge roughly two fifths of the way along from the left, down through the same centre point, to a point on the bottom edge roughly seven tenths of the way along from the left. No labels, letters, measurements or markings appear anywhere on the figure.]
- A. 12
B. 13
C. 8
D. 6
-
43. From a jar containing 5 red balls and 7 blue balls of the same size, a player drew 2 balls at once. What is the number of ways of drawing one blue ball and one red ball? (1)
- A. 12
B. 35
C. 21
D. 66
-
44. If two six faced dice are rolled, then which one of the following is the probability of getting two numbers whose sum is greater than or equal to 5? (1)
- A. $\frac{5}{6}$
B. $\frac{3}{4}$
C. $\frac{11}{12}$
D. $\frac{7}{9}$
-
45. Suppose the symbols ♠, ♥, and ♦ represent three one digit numbers and each symbol has the same value all the time. If the product $(2♠♥)1♦$ gives 4674 and the sum $♦4♥+1♦5+2♠$ gives 836, then which of the following are the possible value of ♠, ♥ and ♦ respectively? (1)
- A. 4, 8 and 9
B. 6, 4 and 9
C. 4, 4 and 6
D. 9, 4 and 6
-
46. Four persons M, N, T and P work together to complete the same task. If M, N and T worked $(\frac{2}{7})^{th}$, $(\frac{1}{7})^{th}$ and $(\frac{2}{9})^{th}$ of the task respectively, and P completed the remaining part of the task, then what is the part of task that P completed more than T? (1)
- A. $\frac{22}{63}$
B. $\frac{8}{63}$
C. $\frac{2}{3}$
D. $\frac{41}{63}$
-
47. Instructions: For Questions 53 and 54 using the information given in the table choose the correct answer from the given alternatives. Table columns: Water tanks / Total Carrying capacity in Liters / Number of pipes surrounding the tank / Amount of matter in Liters that passes through each pipe in 20 minutes T1 / 75,900 / 6 / 275 T2 / 95,680 / 8 / 260 (1)
 Assuming that the tanks were empty and both the tanks started receiving water from all the pipes surrounding them at the same time, which one of the following is NOT true?
- A. Both tanks took equal length of time to be filled.
 B. Tanker T_1 requires 15 hours and 20 minutes to be filled.
 C. T_2 carries 62,400 liters in 10 hours.
 D. Tanker T_2 carries 75,250 liters in 15 hours.

48. Instructions: For Questions 53 and 54 using the information given in the table choose the correct answer from the given alternatives. Table columns: Water tanks | Total Carrying capacity in Liters | Number of pipes surrounding the tank | Amount of water in Liters that passes through each pipe in 20 minutes T_1 | 75,900 | 6 | 275 T_2 | 95,680 | 8 | 260 (1)

If all the pipes surrounding T_1 were working together and two of them stopped working after 5 hours, then how many liters of water is in T_1 after a total of 12 hours?

- A. 24,750 B. 47,850
C. 23,100 D. 59,400

49. A student increased her usual speed by 50% and reached at her school 20 minutes earlier than her usual time of arrival using the same path. Which one of the following is the time that could take her to reach the school by travelling with her usual speed (in minutes)? (1)

- A. 50 B. 40
C. 60 D. 70

50. In a game of 80 points, where T and R are playing together. T has given 16 points to R. When M and T are playing together. T had given 20 points to M. Which one of the following is the number of points that M has to give to R when they play together in a game of 150 points? (1)

- A. 50 B. 40
C. 30 D. 60

51. The following histogram presents the monthly salary of employees at a certain company in thousands of Birr. Histogram titled "Monthly Salary of Employees". Vertical axis labelled "Number of employees", marked 0, 5, 10, 15, 20, 25, 30, 35 with horizontal gridlines at each mark. Horizontal axis labelled "Monthly Salary in thousands of Birr of employees", with six adjacent class intervals: 4-8, 8-12, 12-16, 16-20, 20-24, 24-28. (1)

What is the number of employees who earn monthly salary of less than Birr 16,000?

[Figure: The following histogram presents the monthly salary of employees at a certain company in thousands of Birr. Histogram titled "Monthly Salary of Employees". Vertical axis labelled "Number of employees", marked 0, 5, 10, 15, 20, 25, 30, 35 with horizontal gridlines at each mark. Horizontal axis labelled "Monthly Salary in thousands of Birr of employees", with six adjacent class intervals: 4-8, 8-12, 12-16, 16-20, 20-24, 24-28. Bar heights, each bar top resting exactly on a gridline: 4-8 reaches 30; 8-12 reaches 20; 12-16 reaches 20 (its top is drawn as one continuous line with the 8-12 bar); 16-20 reaches 15; 20-24 reaches 10; 24-28 reaches 5. The bars therefore step down by 5 employees at each class boundary after 8-12, and the six frequencies total 100 employees. The figure is reproduced in the document as a photograph of a printed chart, slightly skewed and blurred; no numeric labels are printed on the bars themselves, so the heights above were read against the printed gridlines.]

- A. 50 B. 60
C. 70 D. 65

— END OF EXAMINATION —
