

Scholastic Aptitude Test, 2016 EC, model exam, Arada

Grade 12 · Aptitude · 2016 E.C.

Time allowed: 120 minutes

Questions: 49

Total marks: 49

Name _____ Grade _____ ID No. _____ Date _____

1. NATIVE: FOREIGN:: (1)
 A. LOCAL: IMPORT B. DOMESTIC: HOMEGROWN
 C. NAÏVE: SOPHISTICATED D. MEAN: UNKIND

2. BRACELET: WRIST: (1)
 A. SHOE: LEG B. WATCH: ARM
 C. STOCKINGS: GLOVE D. BELT: WAIST

3. LEARN: STUDY: (1)
 A. KEEP: AGREE B. RAISE: ACCUMULATE
 C. ENCOMPASS: PERVADE D. FIND: SEARCH

4. SAND: GLASS: (1)
 A. SEED: FLOWER B. COTTON: WOOL
 C. TREE: PAPER D. STOVE: OVEN

5. _____8. AESTHETICS: BEAUTY: (1)
 A. EPISTEMOLOGY: KNOWLEDGE B. LOGISTICS: TRUTH
 C. ETHICS: SOCIETY D. RHETORIC: MUSIC

6. The exam committee has already chosen Martha because she was proficient in the use of computer. (1)
 A. adequate B. skilled
 C. smart D. sincere

7. The new trained worker was fast becoming an indispensable member of the technique department , so they had (1)
 no choice but to offer him a higher salary to stay on.
 A. creative B. useless
 C. active D. crucial

8. The manager of the company refuses to resign, intending to weather the storm (1)
 A. criticize someone B. survive a crisis
 C. mislead the staff D. guess correctly

9. Many people struggle to make ends meet (1)
 A. earn just enough to live B. be healthy
 C. be wealthy D. avoid trouble

10. SINCERE (1)
 A. dishonest B. dissent
 C. genuine D. disapprove

-
11. EXHAUSTIVE (1)
- | | |
|---------------|---------------|
| A. conserving | B. incomplete |
| C. indecisive | D. strong |
-
12. IMMEDIATE (1)
- | | |
|-------------|------------|
| A. future | B. limited |
| C. multiple | D. complex |
-
13. RENAISSANCE (1)
- | | |
|---------------|----------------|
| A. regressing | B. revival |
| C. rebirth | D. reawakening |
-
14. TERMINATE (1)
- | | |
|-----------|-----------|
| A. depart | B. end |
| C. begin | D. hasten |
-
15. _____ deny:: accept: reject (1)
- | | |
|---------------|----------------|
| A. understand | B. acknowledge |
| C. assume | D. refuse |
-
16. Surplus: abundance:: deficit: _____ (1)
- | | |
|-----------|---------------|
| A. enough | B. efficiency |
| C. amount | D. shortage |
-
17. Potent: powerful: Lethal:_____ (1)
- | | |
|------------------|-------------|
| A. deadly | B. flagrant |
| C. mean-spirited | D. crass |
-
18. Mount is to horse as _____ is to train (1)
- | | |
|----------|----------|
| A. drive | B. ride |
| C. lift | D. board |
-
19. Mend: sewing: edit: _____ (1)
- | | |
|------------|--------------|
| A. repair | B. makeshift |
| C. correct | D. darn |
-
20. Which of the following two statements prove that "Dagimawit and Goitom are married"? (1)
- | | |
|--|------------|
| A. Dagmawit is married to Samson's only brother. | |
| B. Dagmawit married her high school sweet heart. | |
| C. Goitom and Dagmawit love each other. | |
| D. Samson has the same parents as Goitom. | |
| A. B and C | B. A and D |
| C. C and D | D. A and C |

21. Which of the following two statements prove that " Aster is a child"?

(1)

- A. Aster lives with her parents.
B. Aster is the little sister of Andargie.
C. Andargie has just turned 12.
D. Andargie is still in primary school.

- A.** C and D **B.** A and C
C. B and D **D.** B and C

22. Which of the following two statements prove that Jemila is a pilot?

(1)

- A. Jemila loves Ethiopia.
- B. Jemila's father is a professor.
- C. Jemila's brother is a pilot.
- D. Jemila has the same job as her brother.

- A.** A and C **B.** B and C
C. C and D **D.** A and D

23. *Lions are rather reticent about expanding their energy in hunting. More than three quarters of kills are made by lionesses holding front position and carefully scanning ahead. The cubs lag playfully behind and the males bring up the rear and walk slowly with their massive heads nodding with each step as if they were bored with the whole matter. With lionesses' busy hunting, the male functions as guard for the cubs, protecting them particularly from hyenas.*

According to the passage how the lionesses hunt their prey?

- A. cautiously B. reticently
C. carelessly D. reluctantly

24. *Lions are rather reticent about expanding their energy in hunting. More than three quarters of kills are made by lionesses holding front position and carefully scanning ahead. The cubs lag playfully behind and the males bring up the rear and walk slowly with their massive heads nodding with each step as if they were bored with the whole matter. With lionesses' busy hunting, the male functions as guard for the cubs, protecting them particularly from hyenas.*

Based on the above passage, the male lions are unwillingness for hunting. What is the reason?

- A. they want to train their cubs and lionesses.
- B. they want to save their energy for other purposes.
- C. they are so lazy.
- D. They afraid their prey.

25. *Lions are rather reticent about expanding their energy in hunting. More than three quarters of kills are made by lionesses holding front position and carefully scanning ahead. The cubs lag playfully behind and the males bring up the rear and walk slowly with their massive heads nodding with each step as if they were bored with the whole matter. With lionesses' busy hunting, the male functions as guard for the cubs, protecting them particularly from hyenas.* (1)

Lionesses move for searching food :

- A.** with their male partner **B.** with their cubs only
- C.** with their cubs and male partners **D.** all alone the lionesses themselves

26. Lions are rather reticent about expanding their energy in hunting. More than three quarters of kills are made by lionesses holding front position and carefully scanning ahead. The cubs lag playfully behind and the males bring up the rear and walk slowly with their massive heads nodding with each step as if they were bored with the whole matter. With lionesses' busy hunting, the male functions as guard for the cubs, protecting them particularly from hyenas. (1)

The male adult lions guard their cubs from_____

- A. their own species
B. other wild life
C. hyenas rather than other animals
D. hyenas as equal as other animals

27. Which one of the following is the quadrant that the common solution of the equations $2y - 3x = 6$ and $y - x = 0$? (1)

- A. One
B. Two
C. Three
D. Four

28. Which one of the following intervals is the set of all possible values of x for which $(x, -6)$ is a solution to the system of inequalities $\begin{cases} 2x - y \geq 4 \\ x + y \geq 2 \end{cases}$? (1)

- A. $[9, \infty)$
B. $[8, \infty)$
C. $[9, 12]$
D. $[6, \infty)$

29. A fair 12 – faced die with faces numbered 1 to 12 is to be rolled once. Then, what is the probability of rolling a number that is Not prime? (1)

- A. $\frac{7}{12}$
B. $\frac{1}{2}$
C. $\frac{5}{6}$
D. $\frac{3}{4}$

30. In a certain school if the ratio of teachers to students is 2 to 23. Which one of the following can be the total number of teachers and students in the school? (1)

- A. 430
B. 440
C. 450
D. 460

31. The unit's digit(or one's place) of the number 123^{123} is :- (1)

- A. 1
B. 3
C. 7
D. 9

32. Which of the following linear inequalities define the domain of $\sqrt{x - y - 2} + \log(x + y - 4)$? (1)

- A. $4 - x < y \leq x - 2$
B. $x - 4 < y \leq x - 2$
C. $x - 2 \leq y < 4 - x$
D. $x - 2 \leq y < x - 4$

33. Consider the following table. Then, which one of the following relation is true between A and B? (1)

[Figure: A table with two columns and two rows:

Row 1 (Header): "Quantity A" | "Quantity B"

Row 2: " $4^{11} + 4^{11} + 4^{11} + 4^{11}$ " | " 8^8 "]

- A. Quantity A is less than Quantity B.
B. The relationship can Not be determined.
C. Quantity B is less than quantity A.
D. The two quantities are equal.

-
34. The number 1 up to 6 are used to form six-digit numbers. What is the total number of these formed numbers whose sums of all adjacent digits is odd? (1)
- A. 36
B. 72
C. 108
D. 144
-
35. If the one-fifth of one-third of a number is 6, then what is seven-tenth of the number? (1)
- A. 24
B. 36
C. 63
D. 42
-
36. The sum of the first five composite numbers is: (1)
- A. 34
B. 35
C. 36
D. 37
-
37. The sum of the ages of the mother and her daughter is equal to sixty years. Six years ago the age of the mother was five times the age of her daughter. What will be the age of the daughter Seven years from now? (1)
- A. 21
B. 22
C. 23
D. 24
-
38. If $8^{x-y} = 64$ and $2^{3x+3y} = 128$, then x is equal to :- (1)
- A. $\frac{1}{6}$
B. $\frac{13}{6}$
C. $\frac{4}{3}$
D. $\frac{11}{3}$
-
39. A hemisphere whose volume is 3 has a radius 3y. What is the volume of a sphere whose radius is 6y? (1)
- A. 18
B. 24
C. 32
D. 48
-
40. $\frac{7^{16}-7^{15}}{7^{14}}$ is equal to: (1)
- A. 14
B. 21
C. 42
D. 7
-
41. If $0 < x < 1$, then which of the following is less than x ? (1)
- A. $\frac{1}{x}$
B. $\sqrt[3]{x}$
C. $\sqrt{x}$
D. x^3
-
42. When n is divided by 12, then the remainder is 6. Then, what is the remainder when n is divided by 6? (1)
- A. 0
B. 1
C. 2
D. 4
-
43. The number that is $\frac{2}{3}$ of 60 is what fraction of 80? (1)
- A. $\frac{1}{6}$
B. $\frac{1}{3}$
C. $\frac{1}{2}$
D. $\frac{3}{4}$
-
44. Let the sequence is given as 1,3,5,7,9,1,3,5,7,9,1, If this sequence follows the pattern shown , then what is the 104th term of the sequence? (1)
- A. 1
B. 3
C. 9
D. 7

45. If the ratio of p to q is 9: 7 and the ratio of q to r is 14: 3, then what is the ratio of p to r ? (1)
- A. 1: 6
B. 6: 1
C. 27: 98
D. 5: 2
-
46. DIRECTION: Questions 57 – 60 are based on the data given in the table below, which shows the annual income and expenditure of five men. Answer each of the questions below on the given data. (1)
- How many men had higher rate of saving compared to the rate of saving from the total income of all men?
- [Figure: A table showing the annual income and expenditure of five men, with columns 'Men', 'Income in Birr', and 'Expenditure in Birr': - Row 1: Men = P, Income in Birr = 140,000, Expenditure in Birr = 120,000 - Row 2: Men = Q, Income in Birr = 200,000, Expenditure in Birr = 184,000 - Row 3: Men = R, Income in Birr = 175,000, Expenditure in Birr = 155,000 - Row 4: Men = S, Income in Birr = 100,000, Expenditure in Birr = 100,000 - Row 5: Men = T, Income in Birr = 125,000, Expenditure in Birr = 111,000 - Row 6: Men = Sum, Income in Birr = 740,000, Expenditure in Birr = 670,000]
- A. 1
B. 2
C. 3
D. 4
-
47. If each man was expected to save at least 10% of his income, then how many men have met the expectation? (1)
- A. 1
B. 3
C. 2
D. 4
-
48. If one man will be awarded based on the proportion of saving to the income generated, which man do you think deserve the award? (1)
- A. P and Q
B. Q and R
C. R
D. P
-
49. The difference between the average annual income and average annual expenditure of the five individual in Birr is:- (1)
- A. 140,000
B. 14,000
C. 70,000
D. 7,000
